Presentation of Best Practice No 01

1.

Gardening

2. The objective of this practice is to make this college campus more attractive and creating a healthy atmosphere for teaching -learning activities.

3. We have to face so many challenges regarding choosing the place where to develop a attractive garden for a centre of attraction for all the stakeholders including parents, students, teachers, and alumni etc.

4. It creates a beautiful natural scene in the campus and whenever we come near garden we feel spiritual relaxation from all types of stress and fatigue. The higher education goes side by side to the nature as Wordsworth has told that Nature is the greatest teacher of universe.

5. This garden inspires each and every student to create such type of garden in your own area where you live for a spiritual peace so that you can use that kinds of energy and thinking to search the secret of nature for a better world to live in. If it is happened, that will be a great success for living vicinity to the nature.

6. We had to face the problems regarding expenditure for purchasing plants and making arrangement for watering and fencing the garden regularly.

7. In a extensive way we can see that gardening is the practice of growing and cultivating plants as a part of horticulture. In a garden, ornamental plants are often grown for their flowers, foliage, or overall appearances. Gardening is considered as the best hobby as to be done at the time of leisure. Whenever we get free time ,we can invest that time in gardening .By doing that we go near the nature. Man lives not only for bread and butter but also original Upanisads like knowledge of thought. And it is possible only by living near and near to the nature. As Wordsworth has told us that nature never betrays . In one word we can say that nature has accurate solution of every problem of man on this planet.

Presentation of Best Practice No 2.

1.

Sports

2. The objective of sports is to make each and every student healthy and strong physically and mentally to face the challenges of life successfully.

3. We have to face so many challenges to inspire each and every student to take part in at least one sport to make himself/herself healthy and strong physically and mentally.

4. Its uniqueness is that each and every student makes himself/herself be a active person through sports. Every student gets a chance to play his/her own sport compulsorily during sports period. Undoubtedly sports make every student a healthy and strong physically and mentally for achieving success in life. It is said be active is like life and be passive is like death.
5. Sports make every student healthy and strong physically and mentally. Only healthy and strong student can face the challenges of life successfully and can do impossible work to possible. This is the success of sports.
6. We have to face so many problems for purchasing items of sports and at the same time to make arrangements so many different grounds so that at the same time most of the sports will be make available for students for playing during sports time.
7. Sports create a healthy smile at the faces of students, as that is the need of time for creating a healthy teaching learning atmosphere in this college campus. Sports bring players very near to understand one another from very vicinity for better civilization to the next generation.
